## Education

### Kids can Quilt! -- Volunteers Needed!

**"Block Party" at Katonah Elementary School** (4-5 volunteers needed)

Tuesday, March 13 (9:15 - 11 am)

*Help children learn how to hand-sew sashing to a block, print their names with fabric markers, and decorate their blocks with hand prints.*

**Quilt-Piecers -- Sew Quilt Top** (2 volunteers needed)

*Stitch the children's blocks and sashing, as well as the quilt's inner and outer borders. Directions and materials provided. Finished tops will be passed to the quilt volunteers (below).*

**Quilters -- Quilt and Finish the Children's Quilts** (2 volunteers needed)

*Layer, quilt the sashing and border, and attach binding. All materials will be provided. Finished quilts are due at the NSQG May meeting.*

Please contact **Melanie Darensod** for more information or to sign up.

### Special Interest Groups

**Longarm** - The January meeting of the Longarm Group was held on January 7 at Karen Carlson's house. The next meeting will be Saturday, February 4 at Diane Linker's home. New members are always welcome.

**Hand Appliqué** – This month Diane Linker and Chana Brody will demonstrate the use of bias makers to make stems or vines. We also will discuss the use of vines in appliqué quilts. In addition, please bring show-and-tell items so we can share in the progress of your projects.

**The Sticklers** -- Our next meeting will be Saturday, January 14 at 10 am. We'll conduct the "sit and sew" session we'd planned for December. Bring some hand-piecing or appliqué blocks that beg to be finished -- or tackle a new block in the company of friends! For blocks that require an extra step or quick seam, a sewing machine, iron, and cutting mat will be provided. We'll also discuss meeting topics for 2012. Newcomers always welcome! Please contact Carolyn Finn for details

## Education, *continued*

**Art Quilts** – The Art Quilters had a rip-roaring December meeting with the fabulous SAQA Trunk Show and a marvelous demo by our new member Christine Wilhelm. We welcomed two new members, **Peggy Smith** and **Cheryl Kosarek**!

On the agenda for January: **Mayann Weinberg** will demonstrate her innovative gallery hanging method (and if any members have their OWN way of hanging works other than with a sleeve, please bring a sample and show us!)

The registration for our FORMS OF A DRESS challenge is extended another month to the January meeting. We hope to have at least thirty works to display at this year's quilt show. Happy New Year! Please contact **Debbie Bein**, group leader, for more information.

**Landscape** – Six eager landscapers met for the first time in December. They decided to share their process and techniques and will begin to look at different ways of creating a cartoon and handling perspective. The group will meet at 6 pm in the cafeteria before the monthly meeting. Please contact Jane Eyes at Education@Northernstarquilters.com if you'd like to join the group.

## Hospitality

Many thanks for your overwhelming response to the Holiday Food Drive! You generously donated more than 600 pounds of food for our neighbors in need!

**Carolyn Finn**, my partner in this endeavor, delivered half our haul to the Food Bank for Westchester; my stash went to the Food Bank of Lower Fairfield County.

**Carolyn Langevin** helped with the collection and the always reliable **Joan Citron** coordinated the Hospitality table with **April Russell's** assistance.

Your generosity spilled over to the Hospitality table where, once again our members shared their favorite Holiday treats.

For January, we ask those whose last names begin with the initials **J, K** or **L** to provide snacks for our members. If you are able to help us with set-up, serving or clearing, please email me to volunteer.

## Technique Classes

### Free-motion Quilting (Suzanne Sunday)

Have you mastered the basics of free-motion quilting but find yourself stippling your quilts almost all the time? Then this workshop is for you! We will create a "work book" of 8.5 x 11" practice sheets of different free-motion quilting patterns that will form your own free-motion quilting reference binder. We will discuss various pattern options for different quilting spaces and the use of different threads. You'll have the opportunity to experiment and try anything you like, making as many sheets as you like. You will find yourself adding to your sheets for years to come and referring to your workbook almost every time you free-motion quilt.

Prerequisite: You must know the basics of free-motion quilting basics and be familiar with it on your machine. (This doesn't mean you need to be good at it!) \* Class Full \*

Luann Bruce, quilt designed with EQ7

### Beyond the Basics EQ6 and EQ7 (Luann Bruce)

This class continues on from last year's beginners' class. Now you will learn to make more complicated blocks and quilts, even touching on the Custom Set. If you already have designed a few quilts in EQ, then this is the class for you.

Bring a laptop with EQ loaded and activated.  
You also will need a mouse and extension cord.

Luann Bruce, quilt designed with EQ7

*(Continued on next page)*

## Technique Classes, *continued*

### Hand Piecing, including Inset Seams (Linda Ostrander)

Would you believe that it doesn't take much longer to hand-piece a quilt than to do it by machine? You really have more time away from your machine than you realize. By hand piecing, you can be quilting during all these spare moments! The techniques are easy. With a "tumbling blocks" block, you will learn to rotary-cut your patches, use templates and quickly hand-sew a block with inset seams. You will be amazed at how much can be accomplished in a very short time.

## Project Classes

### Fabric Collage Appliqué (Tamar Drucker)

We will work on a pictorial landscape using raw edge appliqué. Bring your favorite landscape photo (may be from a magazine) or use one of the samples available in class. (Please enlarge the photo if you're bringing one of your own.) Depending on the complexity of your design and/or its size, the actual quilting of your project likely will be done at home.

### Trip Around the World in Eight Hours (Maria Weinstein)

Come create a lap-size (45 x 60") trip-around-the-world quilt. This is a great technique for recreating an old-time favorite. Traditionally made from individual squares, this method uses all strips. This makes it faster and easier to complete in eight hours. The course level is from advanced beginner to intermediate.

Maria Weinstein, *King of the Whole Wide World*, 2011.

Mary Cannizzaro, *Joe's Quilt*, 2004.

### Joe's Quilt (Mary Cannizzaro)

This is a great class for beginners or anyone looking to make a stunning quilt with little to no stress.

## Sit 'n' Sew

For those with their own projects to complete who'd like the company of their fellow quilters, we offer this opportunity to have your work admired. The sharing of funny stories is welcome, but not mandatory. We'll have electricity available should you wish to use a sewing machine.
